Academics

In Language, we will work on identifying the central idea and relevant details that support it. We also continue to work on understanding the author's purpose. We will continue our work on text structures with Problem and Solution. We will also learn about figurative language and will continue reinforcing grammar skills.

In Math, we will work on multiplying fractions, including real-world problems. We will also work on understanding division with unit fractions.

In Social Studies, we will learn about the Early Explorers, specifically English and French explorers.

In science, we will continue exploring Energy, specifically the Transfer of Energy. We will also have our Science Week December 15th-19th.
