

Cypress September NEWSLETTER

Ms. Shannon and Ms. Astrid

Dear Fourth Grade Families,

We have had a happy and productive start to the school year, and the students are getting acclimated to their new routine. We have been learning the rules and routing of the classroom, understanding the expectations and getting to know each other. Here is a brief overview of what we will be learning in September:

English Language Arts: Students will be focusing on comprehension skills such as central idea, relevant details, character development and sentences. They will also be continuing to write argumentative essays.

Math: Students will be learning rounding, prime and composite numbers and numerical patterns.

Science: The students will begin the stemscope curriculum, starting with Changing Properties of Matter.

Social Studies: The students will be learning about Hispanic Heritage and celebrating this special month with a project and presentations.

As we make our way through this first month, please feel free to reach out to us for anything at all, as we are here to make the transition into fourth grade as smooth as possible for both you and your child.

We look forward to working with your child during this exciting part of their education!

Important Dates:

September 1st- Open House

September 4th- Native America Day
