

September Newsletter

5th Grade

Academics

In Language Arts, we will expand on vocabulary, grammar, text features, text structures, compare and contrast, author's purpose, author's claim. We will also be writing both argumentative and expository essays.

In Math, we will work on conversions, plotting, ordering, comparing and rounded decimals.

In Science, we will learn about the experimentation process and why it is important to plan before conducting an experiment. We will also start learning about Properties of Matter.

In Social Studies, we will learning about the cultural aspects of Native American tribes. We will also study different natural events and how they have affected our history.

Homework

Due every Friday.
